Work Experience

Full Stack Engineer **Tigerspike, Sydney** *(Aug 2019 - Present)*

- During my time at Tigerspike, a boutique AWS Partner specializing in Mobile Application Development, I worked on projects for a couple of clients; GrainCorp and Queensland Police Service (QPS).
- During my time at Graincorp, working in an Agile team my responsibilities included; helping to develop and maintain a hybrid AngularJS & Angular application, upgrading from AngularJS to Angular while delivering new features with a mobile-first responsive design and developing an end to end automation suite with Selenium.
- I joined the Queensland Police Service (QPS) project during its initial phase. As a part of my role I was involved in the design and development of a backend microservices architecture in .Net Core and .Net Framework following various software design & architectural principles including Clean architecture and BFF architecture. Part of my role included developing and maintaining containerized microservices that would integrate with various government data sources with a lot of focus on security, auditing, logging and high levels of automated testing. As well as development of new features I was also involved in the implementation & maintenance of an automated build & deployment pipeline and cloudification utilizing various tools including, Terraform (Infrastructure as code), Jenkins, Bitbucket, Docker, Sonarqube & various AWS services including Code Build, CloudWatch, ECS, API Gateway, EC2 etc.

Engineer **Planit Software, Auckland** *(Jan 2017 – Aug 2019)*

- Working at various clients (including ASB Bank, Auckland Transport and Auckland City Council) on medium to large projects; Analyzed requirements, collaborated with business users, developers and testers. Worked on most phases of the Software development Life Cycle (SDLC), using Waterfall model and Agile methodologies.
- Taken on various responsibilities including; Backend and Frontend development (FULLSTACK), Functional Testing, Automated Testing, Scrum Mastering, Release Management, Performance Testing.

Technical Support **Concentrix, Auckland** *(Oct 2016 - Jan 2017)*

- Provided exceptional customer service and technical support for Spark and Xtra email customers
- Troubleshoot software issues and identify network/application issues
- Provide detailed information on how to setup/configure email on different platforms and devices.

Pharmacy Assistant   **Mangere Health Pharmacy, Auckland**   *(Mar 2011 - Feb 2012)*

- Ensure operational efficiency through processing and preparing prescriptions, providing front counter customer service and answering telephone enquiries.
- Improve customer experience by cultivating trustworthy relationships by troubleshooting problems and consulting with head pharmacist.
- Aid pharmacist in counting pills, dispending medication and preparing blister packs.
